DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Roberts of record for reasons of record.

Response to Arguments

Applicant's arguments filed 9/25/06 have been fully considered but they are not persuasive.

Applicants agree that the Roberts patent discloses a heating element that is different from the high potential generating device. Applicant however argues that the reference fails to teach or suggest that these two elements are used to produce active water simultaneously.

As stated by applicants the heating and high voltage is applied simultaneously (see col. 1, lines 50-66). This application of the high voltage would inherently form the active water, since it has been well settled that similar process would produce similar results. The high potential generating device can produce a voltage up to 60,000 V (see col. 4, lines 1-25). The higher temperature

would use of lower voltage, which would read upon the claimed range of voltage as stated in col. 1, lines 62-64.

Accordingly, the claims stand rejected.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
